Convexia Expo Center

**Specialized
sector in
renewable
energy.**

Our Statistics.

+250

Exhibiting
brands

+40

Specialized
conferences

+20 000

Visitors

Specialized congresses.

→ They constitute a **high-level platform** designed to promote analysis, professional development, and coordination within the **energy sector**.

They bring together industry leaders, authorities, and business executives through conferences and technical talks where trends, **success stories, and strategies focused** on energy efficiency, resource optimization, and improved environmental performance are presented—**promoting** a more competitive and **sustainable industry**.

Benefits of participation.

International Networking.

The event **enables interaction** with entrepreneurs, associations, and institutional representatives, creating valuable connections for future business and collaborations.

Generation of business partnerships.

The trade fair is an ideal platform to identify strategic partners who strengthen the value chain, expanding **distribution channels** and operations.

Brand positioning and visibility.

The trade fair gives exhibitors the opportunity to present their products and services to a highly specialized audience, strengthening their presence in the industrial market.

Transitioning toward a sustainable energy future.

Expo Energética is a specialized trade fair that brings together leading companies, technology providers, and industry experts to showcase the latest innovations in energy efficiency, renewable energy, and **industrial sustainability**. It has established itself as a high-level platform where solutions, technology, and knowledge converge to accelerate the transition toward a more competitive and responsible energy model.

As a **strategic business platform**, it promotes commercial exchange, the creation of partnerships, and technological updating, strengthening the sector's value chain and positioning itself as a key meeting point for the **energy development** of Peru and the region.

The new **energy** hub of Latin America.

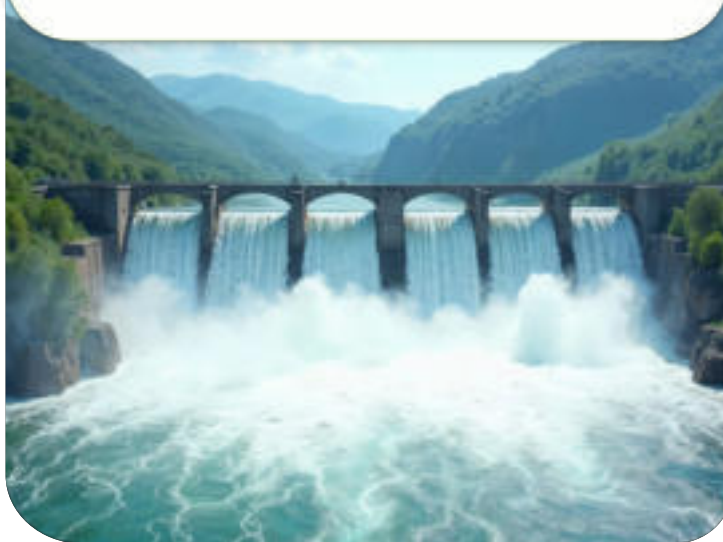

→ It **integrates solutions** in hydroelectric and photovoltaic generation, automation, renewable energy, and backup equipment, driving a greener, more competitive, and **sustainable industry** in the region.

Hydraulic.

Discover hydroelectric generation solutions that drive energy sustainability for large and medium-sized industries.

Photovoltaic.

Suppliers of industrial robotics solutions, process control, sensors, instrumentation, PLC systems, production line integration, and Industry 4.0.

Automation.

Discover innovations in smart control to maximize efficiency and reduce operational costs in the energy sector.

Renewable energy.

Integrate sustainable solutions in biomass, wind, geothermal, and other green sources that are transforming the energy future of Latin America.

Generators.

Equipos de respaldo energético, soluciones híbridas y sistemas de generación que garantizan continuidad operativa y seguridad eléctrica en cualquier entorno.

Energy storage.

Discover solutions in industrial batteries and storage systems that optimize energy management, ensure grid stability, and maximize the use of renewable sources.

¿Who are our visitors?

☒ Engineers and managers in energy and industrial projects

Interested in renewable energy, solar panels, batteries, motors, servomotors, electrical panels, and generators.

☒ Industrial Lighting and Energy Managers.

Interested in industrial lighting, efficient lighting, and control systems.

☒ Suppliers of electrical materials and automation.

Focused on electrical materials and industrial automation and control solutions.

☒ HVAC Engineers

Interested in heating, ventilation, air conditioning, and industrial refrigeration systems.

☒ Directors and decision-makers in the energy sector.

General managers, operations, maintenance, and sustainability directors seeking strategic investments, technological innovation, and business opportunities that enhance the competitiveness and efficiency of their organizations.

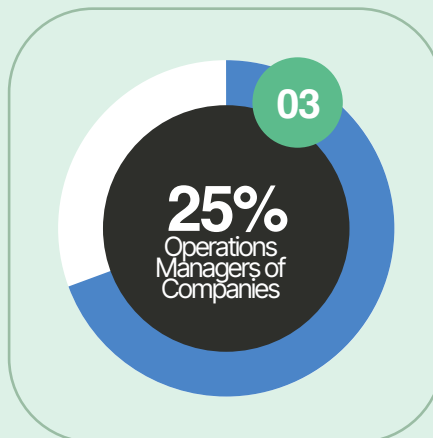

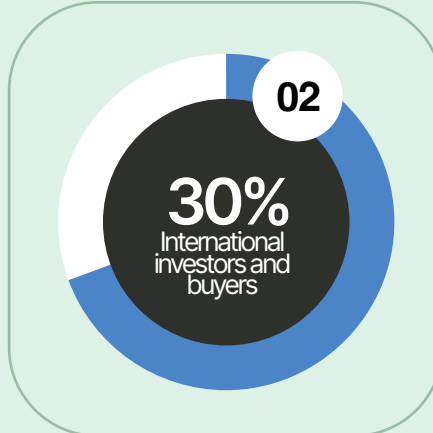

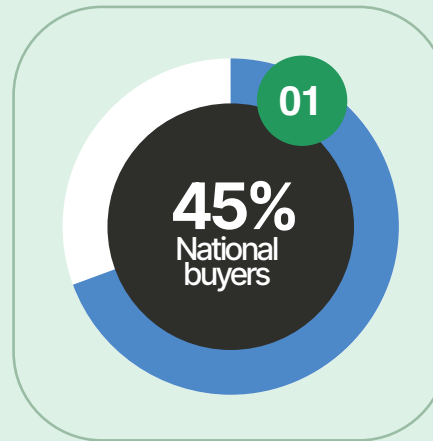

In 2025, we were visited by more than **15,000 business people.**

Visitor profile.

It is primarily composed of **decision-makers** and strategic players in the energy and industrial sectors.

National buyers, investors, and international purchasers participate, as well as operations managers and company executives, all focused on generating **business**, establishing partnerships, and learning about the latest **market innovations**.

Strategic platform for
industry leaders.
